

Call for Papers
for a CMAM Special Issue on
“Domain Decomposition Methods”

A special issue of the journal *Computational Methods in Applied Mathematics*

<http://cmam.info>

will be devoted to Sergey Nepomnyaschikh who passed away in May 2011. Sergey has made very important contributions to domain decomposition and related methods. Therefore, the special issue should include topics like

- Domain Decomposition Preconditioners and Fast Parallel Solvers,
- Domain Decomposition Methods for Multiscale Heterogeneous Problems
- Schwarz Methods

Contributions to the special issue are solicited. The papers should be prepared according to the Instructions for the Authors which can be found on the CMAM homepage

http://www.cmam.info/index.php?in=for_authors

where the authors can also download the corresponding CMAM style files etc. The papers should be sent electronically (as pdf-file) to the responsible editor:

Ulrich Langer
Member of the CMAM Editorial Board
Johannes Kepler University Linz
Institute for Numerical Mathematics
Altenbergerstr. 69
A-4040 Linz, Austria
E-mail: ulanger@numa.uni-linz.ac.at

All papers will be refereed following the editorial policy of the journal. Deadline for the submission is **April 30, 2012**.

Vadim Korneev (St. Petersburg)
Yuri Kuznetsov (Houston)
Ulrich Langer (Linz)
Aleksandr Matsokin (Novosibirsk)
(Editors of the Special Issue)
